Americanism And Wilson Labor Board, Two Hopes
Held Forth By Government Officials For Settle-
ment Of Nation Wide Railroad Strike.

ARREST OF LEADERS OF TROUBLE. HAS. BEEN ORDERED

Attorney General Palmer's Charge That Movement Was
Fostered By I. W. W. Led To Action By Federal
Officials In Chicago District

Chicago, April 15.—The arrest of the leaders of the switchmen's strike was ordered here today. Thirty deputy U. S. marshals are now rounding them up. It was reported that they would be charged with violations of the Lever act. Federal officials here acted after receiving Attorney General Palmer's report that the strike was backed by the I. W. W.

Washington, April 15.—Americanism and the railroad labor board were the two hopes held forth by government officials today for settlement of the nation wide railroad strike. Attorney General Palmer was expectant that following his expose of

RAILROAD STRIKE AIRED IN HOUSE NEED NEW LAWS

Claims Assistant Head of Labor Department Blocked the Attorney General in Deportation Proceedings Cooper Denounces Publication of the Plumb Plan League—Unrest Discussed by Baer.

Washington, April 15.—The house session was featured by a debate on the railroad strike.

Representative Davey, Democrat, Ohio, declared the situation demonstrated the need of the anti-sedition legislation. Representatives Carss, independent, Minnesota, and Cooper, Republican, Ohio, both former railroad workers, said the employees on strike were underpaid. The latter asserted, however, that the strike was instigated by certain radical elements.

Louis Post, assistant secretary of the department of labor, came in for criticism during the debate. Mr. Davey declaring that Mr. Post had "blocked the attorney general" in deportation proceedings against alien radicals, some of whom, he asserted, are among the strike leaders.

Saying Mr. Post "ought to be removed from office," Representative Davey announced a willingness to introduce an impeachment resolution. "The sympathies of Mr. Post are evidently with the enemies of our government," said Mr. Davey.

Representative Cooper, though declaring his belief that the Plumb plan league had nothing to do with the strike, asserted that the league's official publication "has done more to poison the mind of the railroad men than anything that has happened in the last year." The league's publication, he said, was "managed" by Edward Keating, a former member of congress from Colorado, and had "condemned members of congress as grafters, tools of Wall street and bowing to great interests."

Cartoons in the publication, drawn by Representative Baer, Republican, North Dakota, depicting congress as enacting a transportation bill oppressive to labor, were attacked by Mr. Cooper, who asserted that Baer "ought to take his hat and coat and resign."

Representative Baer, replying to Cooper, declared that he would continue to draw cartoons for the Plumb plan publication, as he had sufficient cause for his opinion that the railroad bill was not for the benefit of labor.

Mr. Baer added that he did not believe members of congress "consciously" voted in favor of Wall street in supporting the railroad bill, but declared "many did not know what was in the measure." Unrests and strikes, he asserted, were "not caused by the Plumb plan paper, but by repressive bills passed or pending in congress."

VESSELS ARE IDLE
Cleveland, O., April 15.—Approximately 500 Great Lake vessels are idle today because of the fuel shortage resulting from the rail tie up, it was reported by heads of navigation companies controlling three fourths of the shipping on the lakes.

DENY REPORT
San Antonio, Tex., April 15.—La Prensa today prints a telegram purporting to be from Governor Le De Huerta of Sonora, and denying an independent republic has been set up in that state.

W. Z. FOSTER SAID TO BE INSTIGATOR OF RAIL TROUBLE

Evidence in Hands of Attorney General Palmer Said to Show That the Leader of the Ill-Fated Steel Strike Was Present at Union Meetings. Wilson Meets His Cabinet and Hears Story of the Strike Crisis.

Washington, April 15.—Agents of the department of justice reported that evidence in their possession proves that William Z. Foster, leader of the ill-fated steel strike, is the prime mover behind the railroad strike.

The government let this be known feeling that when the strikers learn what influences are behind the movement they will align themselves with their recognized organizations. Action by the government in the direction of prosecution of strike leaders, therefore, will be held in abeyance pending the expected reaction among the strikers on receipt of information showing the directing impulse of the strike agitation.

The evidence in the hands of Attorney General Palmer shows, it is said, that Foster was present at union meetings which were adjourned to meet in other halls, not as organizations, but as individuals. Mr. Palmer also said that Carl Pierson and A. E. Reese, both of whom the department's investigators have placed in the category with Foster, were engaged in attempts to expand the strike and were definitely connected with planning it. Both began this work in Chicago, Mr. Palmer said.

As this phase of the situation became known, President Wilson met his cabinet for the first time since last August. The whole story of the strike crisis was related and it was understood a decision was then reached to seek a solution through the publication of the motives behind the walkout, the strikers being assured at the same time of early consideration of any wage demands they may have by the railway labor board.

BIG TURNOUT OF G. O. P. MEN IS EXPECTED

Two hundred prominent Republicans from all parts of the country, will attend the banquet of the Greene County Republican Club, which is to be held at the Knights of Pythias Hall, Thursday evening, at which the campaign in this county will be officially launched.

A number of prominent men will appear on the program, and J. M. Mulford, chairman of the Clinton County Republican Executive Committee, and editor of the Lebanon Star will be the toastmaster. Judge R. N. Wannamaker, of the Ohio Supreme Court, will be the chief speaker. State Treasurer R. W. Archer, George H. Clark, chairman, and E. M. Fullington, vice chairman of the State Republican Advisory Board, will be the other speakers.

The banquet is to be served at 7 o'clock. Mr. Fullington was expected to reach here at 2:57 this afternoon, and the other men on the program are to arrive from Columbus at 6:20. Officials of the Greene County Republican Club will meet and entertain them until the time set for the banquet, which will be prepared under the direction of Jacob Kany.

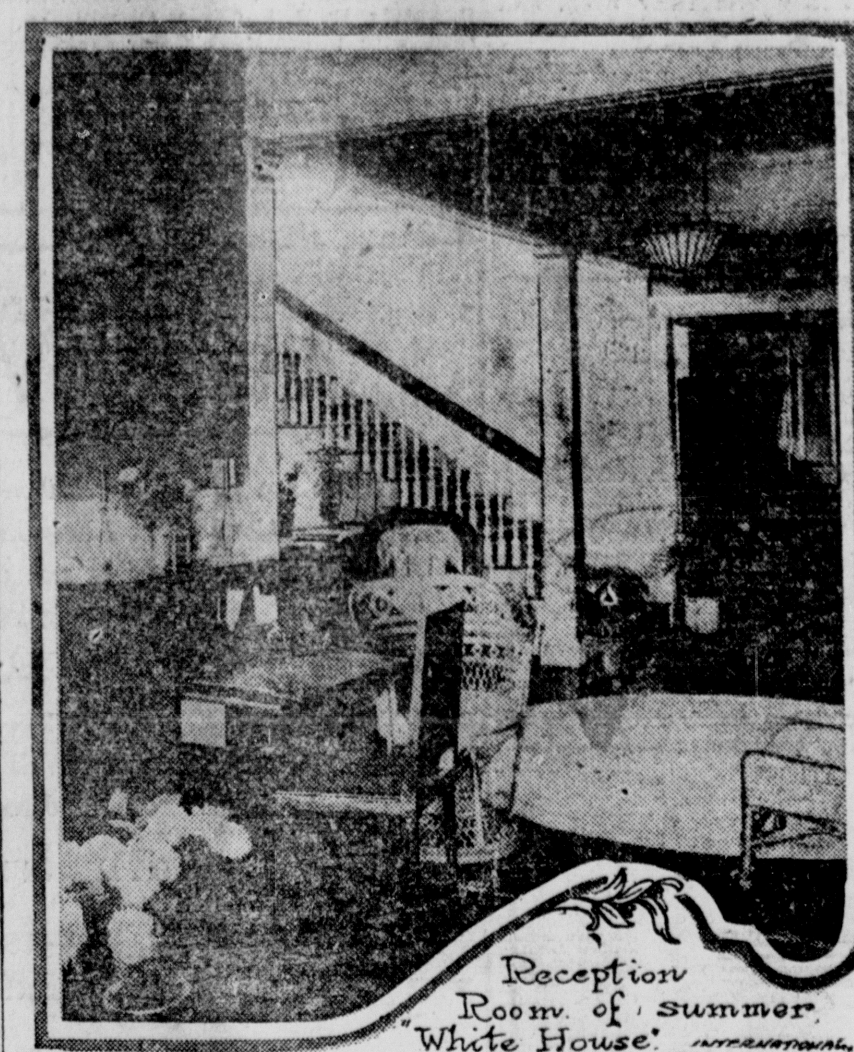

WAR VETERANS ASK FOR RECOGNITION OF ARMENIAN GOV'T

Washington, April 15.—Five hundred Armenian veterans of the European war who fought with the United States forces marched to the state department and presented to Secretary of State Colby who acted for President Wilson, a memorial asking that the United States grant recognition to the republic of Armenia, as has been done by Great Britain, France, Italy and Japan. Major V. H. Kazanjian of Harvard university was spokesman for the delegation, which was gathered from the middle west and various cities in the east. Similar memorials were later presented to Senator Lodge, as chairman of the foreign relations committee of the senate, and Congressman Rogers, acting for Chairman Porter of the house foreign affairs committee.

WHERE THE PRESIDENT WILL SUMMER

Woods Hole, Mass., leaped into prominence when it was announced that President Wilson would spend the summer months on the beautiful estate of Charles R. Crane, newly-appointed Minister to China. This photograph shows the attractive reception hall of the Crane estate.

NEW YORK THREATENED BY ANOTHER WALKOUT

PARTY LEADER SULLIVAN DIES OF PNEUMONIA

Chicago, April 15.—Roger C. Sullivan, 59, Democratic leader of Cook county and prominent in state and national politics for 30 years, died here of bronchial pneumonia. He had been seriously ill a month.

Condemned in his own state by his opponents as a boss and more than once read out of the Democratic party by William Jennings Bryan, Mr. Sullivan led the movement that finally resulted in making Woodrow Wilson president. It was Sullivan who headed the Democratic delegation from Illinois at the Baltimore convention in 1912—a delegation pledged to Champ Clark—and who, after sufficient ballots had been cast to discharge his obligation to Illinois, switched the state to Wilson.

Roger Sullivan had been a participant in every Democratic convention since 1892, and in at least three of the seven he attended he had been a commanding figure. His clashes with Bryan and with the Carter Harrison and William R. Hearst factions of the party in Illinois, which brought him the title of boss from his political enemies, made Sullivan a Democratic figure throughout the country.

Coming to Chicago in 1879 to work in the railroad shops as an apprentice machinist at \$1.25 a day, Mr. Sullivan was reputed to be worth more than \$1,000,000 at his death. He was born near Belvidere, Ill., Feb. 2, 1861, and was first employed as a farm boy at \$8 a month.

GERMANY FAILS TO KEEP FAITH WITH AMERICA

Washington, April 15.—Failure by Germany to make full payments for the maintenance of American forces in Germany, as required by the armistice, was said by Chairman Kahn of the house judiciary committee, in a speech, to have resulted in the troops being maintained at a daily expense to the United States of \$1,220,000. Representative Kahn added that "he doubted if this country would ever be able to recover the great amount of indebtedness from the German government."

Several payments on account have been made by Germany since the armistice, he asserted, but no payments for transportation of replacement troops or supplies for the troops already in Germany have been made. A total of 433,000,000 marks has been paid on account up to April 4, 1920, he said.

"The president and the peace commissioners deliberately bartered away the rights of this country for the league of nations," Representative Longworth, Republican, Ohio, interjected.

"We asked for nothing and the allies took us at our word," Mr. Kahn replied.

FIFTY PER CENT. OF CHICAGO MEN WORKING

While Brotherhood Men Are Considering Return To
Work, Boiler Makers Are Preparing
To Strike.

Chicago, April 15.—Further evidence that the switchmen's strike will end today. They likewise were indignant over statements by Attorney General Palmer that the I. W. W. had been backing the strike.

John Grunau, president of the Yardmen's Association declared Mr. Palmer's statement, that he had been deposited in favor of a "one big union" radical to be untrue.

Because of the betterment of the local situation, district Attorney Clynne is maintaining a "hands off" policy while waiting developments.

Cleveland, O., April 15.—While two lodges of the Brotherhood of Railroad men were holding mass meetings here today to consider returning to work, preparations were made by officials of the boiler makers and shopmen's unions to sound out sentiments regarding a mass strike movement among members of those organizations throughout the country.

Boiler makers and shopmen of the Linndale shops of the Big Four will hold a mass meeting in ten days to take a strike vote.

A representative of the Cleveland "Insurgent" switchmen's union is en route to Chicago today to represent the organization's demands to the new federal wage board.

That the members of the "rebel" body is growing rapidly was the assertion of Frank O'Rourke, head of the union today.

Detroit, April 15.—With the first break in the solid front maintained by the striking yardmen when 25 men returned to work in the Michigan Central yards last night, railroad officials were optimistic today and declared they believed the strike would be over within a few days.

Many small manufacturing plants were forced to close today for lack of power and fuel. The Detroit and Cleveland boat line, the White Star line plying between this city and Toledo, announced today that they would have to discontinue service Friday unless they were enabled to secure coal for their vessels.

ALLEGED PROFITEER
ARRESTED IN N. Y.
FOLLOWING STRIKE

New York, April 15.—The first arrest on charges of profiteering of food products during the shortage caused by the railroad strike was made here today when federal agents took into custody M. J. Eschenbrenner, vice president of the firm of Lewis, Meers and Company, dealers in produce. He was charged with violating the Lever act. The firm's headquarters are in Boston.

The government agents charged Eschenbrenner with making a profit of 10 cents a pound on butter sold here since the strike.

Eschenbrenner was arrested as he emerged from the produce exchange. He was hurried to the federal building.

POLAND THREATENS
ADVANCE THROUGH
GERMAN TERRITORY

London, April 15.—Poland threatens to advance into German territory unless the treaty terms are fulfilled, said a Reuter dispatch from Berlin today. It added that the Germans were taking precautionary measures. The Polish general staff at Warsaw announced that the advancing Polish army has reached the Dnieper river, capturing a river flotilla. Much booty that the Russian army has been captured, it was said. This included 22 guns, 21 railway locomotives, 850 cars, and one armored train. The prisoners taken by the Poles included three brigade staffs and 2,000 men.

TWO SERIOUSLY
INJURED IN RIOTS

Somersworth, N. H., April 15.—Two men were seriously injured and several others beaten up when rioting broke out between strike breakers from Boston and locked out employees of the G. W. Warren Shoe company. Former employees and their sympathizers were eventually driven off by the firemen who directed streams of water upon them.

HUNDRED ARRESTED
Dublin, April 15.—More than 100 persons were arrested today in raids by the military throughout Dublin.

First Overtures For Peace.
New York, April 15.—Edward McHugh, chairman of the strikers' committee, gave out a statement that "now that the railroad labor board has been appointed, we desire to avail ourselves of the opportunity provided by it for a consideration of our grievances." Mr. McHugh declared, however, that the strikers "would not go back until they had received a substantial wage increase and that they are not going to permit politicians in their ranks to lead them."

Vote To Go Back To Work.
Chicago, April 15.—Edward Corrigan, vice president of the Brotherhood of Locomotive Firemen and Enginemen, said enginemen on a number of roads had voted to go back to work. Officers said groups of strikers at St. Louis, El Reno, Okla.; Port Worth and Chickasha, Okla., also had returned, and at Spokane 90 switchmen voted to go back to work.

PRINCE RIDES SURF
Honolulu, T. H., April 15.—The Prince of Wales rode the surf at Waikiki Beach in an outrigger canoe piloted by Duke Kanamoku, world's champion sprint swimmer.

After the ride was finished the prince expressed regret that his program permitted only one day's stay in Honolulu.

UP IS PRESENTED TO MARY WILSON AT O. S. & S. O. HOME

In the presence of all the children, officials and employees of the institution, Miss Mary Wilson, senior in the Ohio Soldiers' and Sailors' Orphans' Home high school, was presented the silver loving cup which she won for submitting the best essay in the Cincinnati district in the national War Department essay contest.

The presentation took place at noon Wednesday in the children's dining room at the home. Captain Walter Jessee, who is in charge of the Cincinnati recruiting station made the presentation. He was accompanied by Lieutenant Moe Neufeld. The two officers brought the cup to Miss Wilson.

Miss Wilson was called before the gathering, and Captain Jessee made a speech in presenting the trophy, at the same time prophesying that the 17 year old orphan girl would be one of the three national prize winners.

Miss Wilson accepted her trophy and held it up so that all could see. It was then carried by the delighted boys to the various departments, and later placed on display in her cottage, cottage No. 1, of which Mrs. Mary Jean is matron.

The cup is about twelve inches tall, is engraved with Miss Wilson's name, the name of her school, and the fact that it was won by her as the writer of the first prize essay in the Cincinnati district in the essay

Discoverer Tells Druggists Not to Take a Cent of Anyone's Money Unless Allergic Completely Banishes All Rheumatic Pains and Twinges. Mr. James H. Allen suffered for years with rheumatism. Many times his terrible disease left him helpless and unable to work.

He finally decided after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Sayre & Hemphill has been appointed agent for Allenhu in this vicinity with the understanding that he will freely return the purchase money to all who state they received no benefit.

According to the best authorities, we are to wear short sleeves for at least one year more. All summer dresses are short sleeved and the few styles that are being suggested for next Fall and Winter have not only very short skirts, but a surprising scarcity of sleeve. This means, of course, that the woman who has homely arms cannot indulge herself in a very comfortable and very youthful fashion.

There is one exercise which is, as far as I know, the very best for developing thin arms and for reducing fat and flabby arms to the proportions of real beauty. This exercise is as follows: Stand facing the mirror so you can watch yourself exercise, and have on a loose uncorseted garment. Stretch the arms out at the sides, on a level with the shoulder. Double up your hands into fists, and then—tensing every muscle in your arms as though you were pulling against a great weight—draw the hands up to the shoulders.

If you have not very good muscles or if you are not accustomed to exercising you may have a little difficulty in tensing or contracting the muscles of your arm. But you must learn to do this for the exercise is of no value if you do not tighten all the muscles in your arms.

When you do this properly, you will see the muscles contract and relax, not only in the arm, but in your neck and over the chest, and you will feel the same muscular action in the back of your shoulders. This exercise will not only develop the arms so that they will have beautiful symmetrical lines, but it will also fill out the hollow shoulders.

If your arms are too fat this exercise will be effective in stripping off the flabby unhealthy flesh, and giving you in its place firm muscles and a becoming roundness.

If you are able to do any rowing, you will find that also a splendid arm exercise. If you cannot, you can get somewhat the same effect by holding the arms directly in front of you, tensing the muscles and pulling the

hands back to the shoulders' as though you were pulling on a heavy weight.

SHE FEELS LIKE A NEW PERSON

So many women suffer from kidney
trouble without realizing the cause of
their sickness that this from Mrs. S.
E. Mills, R. R. 5, Xenia, O., will be
read with interest: "After taking
Foley Kidney Pills I surely feel like a
new person." Aching back rheu-

D. A. R. HEARS STATE CONFERENCE REPORT.

Reports of the state conference of the Daughters of the American Revolution, which was held in Columbus in March were given by several of the women who were delegates to the convention at the April meeting which was held by Catherine Greene Chapter at the Chamber of Commerce Wednesday afternoon.

Mrs. A. C. Messinger, regent of the local chapter, Mrs. W. H. McGee, state secretary, and Mrs. Charles S. Johnson, told about the business of the conference. Catherine Greene Chapter has announced its intention of supporting for three years, a girl pupil of the Shaufler school in Cleveland, and this will necessitate an outlay of \$300 a year on the part of the local chapter. This matter was discussed at the Wednesday afternoon meeting. The Shaufler school trains young people of foreign extraction in Americanization work, and then places them out as teachers among their own people.

Mrs. William Magee Wilson, who was elected regent of the Ohio Society of the Daughters of the American Revolution, will be installed as such at the Continental Congress, which will be held in Washington next week.

Xenia delegates to the conference will start for Washington Friday. They are: Mrs. William M. Wilson, Mrs. W. H. McGee, Mrs. H. K. Eavey, Mrs. Diver Belden and Mrs. Royal Conrad Leslie of Springfield. Mrs. Leslie and Mrs. Belden have been honored by selection as pages to represent Ohio at the Continental Congress. The Xenia women will be joined in the east by two non-resident members, Mrs. William Alken of New York, and Mrs. George F. Hardy of Cryder's Point, White-stone Landing, L. I.

LOCAL MAN WEDS MICHIGAN GIRL.

Mr. Presley returned to Xenia with his bride Tuesday and they will go to housekeeping shortly. Mrs. Presley is the daughter of Mr. and Mrs. Frank J. Mandley of Bay City, Michigan. That city is also the home of Mr. Presley, who became affiliated with the F. W. Woolworth Co. there and came here as manager from Jackson, Michigan, the latter part of January. Mr. Presley has acquired a number of friends since his residence here who will welcome him and his bride to this city.

MILLIONAIRES MADE IN A DAY IN OIL FIELDS SAYS FORMER XENIAN

Millionaires are being made in a day in the oil regions about Vernon, Texas, according to J. E. Lutz, former Xenian, who starts for his home at Vernon tonight, after spending a few days in Ohio.

Mr. Lutz yesterday closed a deal for the lease from people at Bellefontaine of 4800 acres in the oil regions, for a company at Vernon of which he is a member. The company paid \$48,000 for the lease, and will drive the wells and develop the land at its own expense at an outlay which is expected to reach \$100,000.

The big oil boom at Vernon started the first of this year, with the expiration of a ten year lease held by a company on 600,000 acres of oil lands in that vicinity. This company was developing only about 40,000 acres of the leased land, and held the rest to prevent its development by other promoters. Mr. Lutz, who has been in the real estate business at Vernon for years, sold the lease to the oil company ten years ago. He has made thousands out of the present oil boom, and expects to make much more, he says.

He came north for the purpose of making the deal to lease the oil lands from the Bellefontaine owners, and because of urgent business reasons he is returning to Texas immediately. He has been the guest while in this city of his sisters, Mrs. Ida Sinz and Miss Cora Lutz of West Market street.

BEER SIGNS MUST GO SAYS DRY INSPECTOR

Relics of the almost forgotten age, guiding posts of many, an unsteady traveler wending his weary and crooked way home, the beer signs of yesterday, must come down.

L. L. Faris, federal prohibition inspector, who was in this city Wednesday has issued these orders, and has served notice on property owners to remove all such signs, as they are in violation of the Volstead act.

Only one beer sign was still flaunted to the gaze of the multitude, seeming to flagrantly throw defiance in the face of the dry in this city. This sign was at the old depot saloon and the federal inspector immediately gave orders for its removal. The fact that there was only one such sign, shows that Xenia was clean in comparison with many other cities, where numerous signs have been hanging since prohibition came into effect. Owners of the property are liable for the presence of the signs, said Mr. Faris.

While here Wednesday, Mr. Faris issued a warning to grocers and druggists who are selling extracts containing any part of an intoxicating beverage. He said that these dealers should use the utmost discretion, and should not sell the extracts if they knew that they were to be used as a beverage. Violation of the privileges of sale, he said, would make a dealer subject to have his license revoked. Lemon extract bottles have taken the place of empty whisky bottles in the streets here, proving that there is much of the stuff being used. Dealers who are selling these extracts should take warning from the visit of the inspector.

Further information concerning the Volstead Act, he said, could be obtained from J. A. Shearer, federal prohibition director at Columbus.

DAYTON WOMAN DIES AT HOME WEDNESDAY

Dayton, O., April 15.—Mrs. Frances Dolina, wife of Dr. J. F. Dolina, died at her home on Dixon Ave., Oakwood, a Suburb of Dayton, Wednesday morning at nine o'clock. On Tuesday evening she was apparently in good health, but early Wednesday morning she became suddenly ill and effort of physicians to save her life were to no avail.

Mrs. Dolina was before her marriage, Miss Frances Hopkins and she was born at Yellow Springs, in Montgomery county.

Plumpness Makes Health. Thin People Heed This.

If you are too thin; if you are pale and sallow; if what you eat seems not to strengthen you, if your lips and cheeks are colorless, it is because your blood is deficient in red corpuscles and disease can easily overcome you, as you have no reserve strength or nourishment to uphold you.

A pharmaceutical product, called 3 grain hypo-nuclease tablets, is much prescribed for these conditions, and if taken for several months, rapidly increases weight and improves the color. Buy in sealed package of any well stocked apothecary shop.

Nichols of Brookline and a brother, Henry Hopkins of Wenatchee, Washington. Funeral arrangements will be announced later.

D. & T. CAR BARN AT TIPPECANOE CITY WILL BE REBUILT

Dayton, O., April 15.—Work of rebuilding the car barns of the Dayton and Troy Traction company at Tippecanoe City, destroyed by fire early yesterday morning, entailing a loss of \$100,000, will start at once. The loss is covered by insurance.

Harrie P. Clegg, president of the company said last night workmen were at once put to work clearing away the debris and a temporary structure will be erected on the present site. At a meeting of the board of directors yesterday afternoon plans were completed for the erection of new car barns for the line, but the site has not yet been determined.

HAD TERRIBLE COUGH AND NIGHT SWEATS

Cough about gone, eats and sleeps well, and gained 12 pounds.

"In December, 1913, I had a fearful cough, and my physician ordered me to change climate immediately. I went to San Antonio, Texas, and entered a sanatorium. Let me tell you what happened. I was there in October, 1915. Had no appetite, could not sleep, had night sweats and was losing from one to three pounds a week. I also had attacks of the bowels, which the doctors had been unable to relieve.

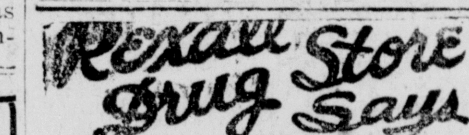

"Relatives urged me to try Milks Emulsion. I did so and began to improve slowly at first, but steadily. My weight has increased 12 pounds. I have no temperature, and my cough is about gone. I can eat heartily, sleep well, and am working at my trade again."—V. W. Nell, 610 No. Dewey St., Oklahoma City, Okla.

Nature does wonders in fighting off disease, if given the chance. Milks Emulsion is a powerful help in providing strength and flesh. It costs nothing to try.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physies. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60¢ a bottle, \$2.50 per dozen. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere. Guaranteed by Sayre & Hemphill.

EATONIC

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours. Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenburys, the sure conqueror of rheumatism, does not cure your agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, we will gladly return your money without comment.

Allenburys has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless. Allenburys relieves at once, immediately after you start it the good begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels. It's marvelous how quickly it acts. Relieved relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days. Mr. James H. Allen, the discoverer of Allenburys, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenburys decisively conquers this worst of all diseases and he has instructed Sayre & Hemphill to guarantee it in every instance. Adv.

terminated. The fire which razed the barns is believed to have started from spontaneous combustion. The blaze was discovered by C. M. Smith, plant foreman, and several employees of the night shift.

A call was sent in for the Tippecanoe City fire department. When it arrived the building was a mass of flames.

Eight passenger cars, just recently remodeled, four trailers, undergoing repairs and considerable equipment for the remodeling of the barns were destroyed. None of the freight equipment of the company was destroyed being located in a building about 100 feet from the burning structure.

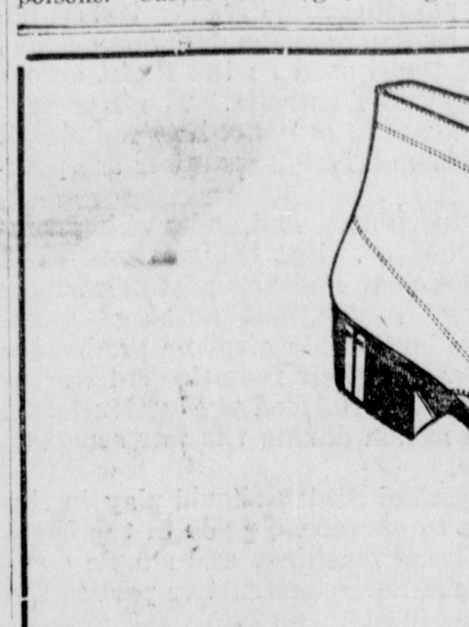

Passenger service on the road was held up for about two hours while firemen were fighting the blaze. At noon the cars were operating on schedule. Traction companies running into Dayton have turned over several passenger cars to the company which will be used until new ones which the Dayton and Troy have contracted for arrive.

The Dayton Power and Light company of Dayton, suffered a loss of \$10,000 in equipment which was stored at the plant for installation.

THE UNITED STATES BEHIND IN AVIATION ENTERPRISES.

Europe is far ahead of the United States in aviation progress. Even struggling little Poland is interested in commercial aviation and proposes to introduce five air lines for passengers, mails and goods.

Great Britain leads all other countries in the development of commercial air traffic. From May 1, 1919, to February 19, 1920, British planes had carried 4,154 passengers and 46,606 pounds of freight, and had covered 70,437 miles. Most of this traffic was between London, Paris and Brussels. From either Paris or Brussels it is but a little over a three-hour trip to London.

Besides establishing regular passenger and freight traffic between London and the continent, British aviation development has included several remarkable long trips, such as the flight across Africa to the Cape, and the flight to Australia. The Handley-Page Company has obtained the air mail contract between Brazil and Argentina. Regular passenger and freight services are planned in India and South Africa.

Private groups are making experiments and undertaking commercial use of airplanes in this country. But the government is doing very little. The war department and the postoffice have established various mail-carrying routes, but nothing more. Many of the plants which started large-scale airplane production during the war have either dismantled their factories entirely or are continuing their work on a greatly reduced production basis. Whatever progress we made as a nation during the war seems to have been lost since the armistice.

This is hardly the part the United States should play in the development of aviation. Justice to ourselves, pride in the early work of American inventors of flying machines and simple common sense all require that we take a more constructive part in the future of flying.

Before the world war, when we were having trouble with Mexico, and Gen. Pershing was playing hide-and-seek with Villa, a couple hundred miles from the frontier, and often seemed lost for a week at a time, we know one editor who kept fussing because flying machines were not being largely used to keep in contact with our forces over there.

Our proximity to the Wright Brothers original aviation field makes us feel more interested than is usual on this subject. We have been hopeful that within a few years we would be able to fly down to Florida, thus overleaping railroad discomforts and railroad strikes. Who knows but that this dream may come true.

NINE-TENTHS OF MEXICO'S FOREIGN TRADE IS WITH THE UNITED STATES.

D. E. Hawkins, a banker of Austin, Texas, has returned after an extended business tour of Mexico, where he made an investigation of trade and general financial conditions and in discussing which he said:

"Nine-tenths of Mexico's foreign trade is now with the United States. All American manufactured articles are finding a ready market there; Mexico's whole trade with all other Latin countries for one year is less than her trade of two weeks with the United States.

"Americans living and doing business in Mexico are on good terms with the Mexicans.

"Possibilities for future development are unlimited. Mexico has much more sugar cane land than Cuba, yet Mexico produces only 100,000 tons of sugar a year, while Cuba produces 4,000,000 tons. Mexico produces 40 per cent of the silver of the world. Abandoned silver mines are being reopened. Mexico is capable of sending 30,000,000 pounds of guayule rubber to the United States annually, and also much dye woods.

"The banks of Mexico are now under a great handicap due to the unsettled condition of the country for the past ten years. I stood in the largest bank in Mexico and watched with wonder the amount of gold coin passing through the paying and receiving windows. This bank has 135 employees. A very small percentage of the business is handled with checks, drafts, bills of acceptance or any kind of order.

"The wide gulf between the rich and poor of Mexico is one of the outstanding features of the country. The majority are very poor. The rich people keep their accounts across the border or with some European concern. There are few deposit accounts that an American banker would call good. Money is hidden away in the ground, in safety boxes, and in every conceivable place, rather than in banks. Apparently this money is coming to light again and the country is rapidly returning to her old business conditions."

Rippling Rhymes

by Walt Mason

CLIMATE.

I TRAVEL east, I travel west, to find the smoothest climate; and when at last I've found the best, no doubt I'll deftly rhyme it. I travel north, I travel south, and find the folks complaining; for here there is a beastly drouth, and there it's always raining. I sit me down beside the sea to write some soulful stanzas, and fogs come up and smother me, and make me yearn for Kansas. Upon the mountain's brow I sit, and view the valleys under, and then the storm fiend throws a fit, with hail and sleet and thunder. I traverse lands across the foam, from Cork to the Nyanzas; and all things say, "You're far from home," and make me sick for Kansas. And Kansas climate is the worst that e'er the Lord invented, with cold and heat and winds accurst—but there I'm most contented. For there my friends are drilling round, the slowest and the quickest; and where my dearest friends are found, the climate is the slickest. I travel up, I travel down, to find an earthly heaven, and always sigh for my old town, dimensions five by seven.

Is It Yours

Benjamin Jowett, theologian and scholar, and the greatest translator of Plato, was born in England on the 15th of April, 1817. He obtained a scholarship to college when he was 18, and graduated with high honors when he was 22, from the college of which he was master.

All his life he was much influenced by the writings and philosophy of the glorious age of Greece, and particularly by the works of Plato. Friends of his have said that he himself was like another Socrates with his pupils, he tried always to make these young men know themselves and he tried to remedy their defects by frank and kindly criticisms. He became known at Oxford as the great tutor. Vacation times he gathered up as many of the undergraduates as cared to go with him, and spent the summer in the country in study, in long tramps and sports, and reading and working.

It was during these vacations that he made his translations of the Dialogues of Plato, a work considered not only the best translation, but even more important because it did so much to popularize the philosophy and the simple common sense of one of the world's earliest and greatest philosophers. He made Plato an English Classic.

He planned a great deal more work in bringing the Greek classics before modern readers, but died before he could accomplish it all.

NO AUTO THIEF THERE, JUST LEFT CAR BY MISTAKE

And now comes Oscar Werber, claiming first prize in the "most absent minded man" contest.

Mr. Werber drove up to the Kany tailor shop Friday afternoon, stopped his machine, went in the shop, came out a few minutes later, and boarded the five o'clock car for Springfield, leaving his machine on the street.

He had not thought of it yet when he came down from Springfield Saturday morning. Later Saturday he went into the Central Garage, loaded about a bit and then went back to the rear of the garage for his machine. Discovering that the car, a Buick touring model, was not there, he trekked to the Kany shop in nothing flat.

"What do I know about your machine?" said Mr. Kany in response to his inquiry. Intending to put in a complaint to Police Headquarters, Mr. Werber hastened to the station house and found the machine sitting out in front.

Patrolmen having seen the car on the street, had it moved to Police Headquarters where it was kept in close surveillance.

FORMER AMBASSADOR SAYS HE EXPENDED MILLION DOLLARS

Berlin, April 14.—(Delayed)—Count Johann Von Bernstorff, former German ambassador to the United States, testifying today before the war investigation commission of the national assembly, declared that he had spent \$1,000,000 for propaganda purposes in America before that country entered the war.

The former ambassador said that he had no funds at his own disposal and that he was compelled to secure money from under Secretary of State Albert.

"It was impossible to give large sums without first obtaining permission from Berlin," he testified. "For the entire German propaganda campaign in the United States I disbursed only \$1,000,000. A prominent American judge had assured me that he believed that 90 per cent of the reports of German outrages were fiction."

The commission resumed its inquiry after a long recess.

TRAGIC SEQUEL ENDS IN DEATH OF MAN IN CHICAGO MONDAY

INCREASED TELEPHONE RATES DISCUSSED AT C. OF C. MEETING

The proposed increase in rates of the Bell Telephone Company which have been filed with the State Utilities Commission for some time, will be discussed at a meeting of the Retail Affairs and Civic Affairs Committees of the Chamber of Commerce Friday evening at 7:30 o'clock at the Chamber of Commerce rooms.

While cards of invitation have been mailed to members of these committees other members of the organization who are interested in the rate increase will also be welcome at the meeting. W. C. Newton, of the Central Union Telephone Company at Columbus will address the meeting and explain the rate increase.

While H. W. Cleaver, local manager of the company, was unable to state the exact amount of the increase Thursday, he said that it would be general. Mr. Cleaver is expecting a copy of the new schedule of rates from Columbus by Friday.

The proposed rate increase petition was filed with the State Utilities Commission last fall to take effect on May 1.

XENIA WORKERS IN RAIL YARDS STILL ON JOB

There was no change in the switchmen's strike situation here Thursday. Freight in the local yards is returned to normal and with conditions bettering all over the country, it is expected that all railroad transportation, both passenger and freight including that now tied up in other cities, will be moving within a few days.

Yardmen have not had any more meetings, and while it was stated that they may walk out again at any time, no action to that effect has been taken. It is thought that the yardmen everywhere are well satisfied over the appointment of President Wilson's labor board, and many feel that the "spring vacation" they enjoyed accomplished its purpose in bringing this about.

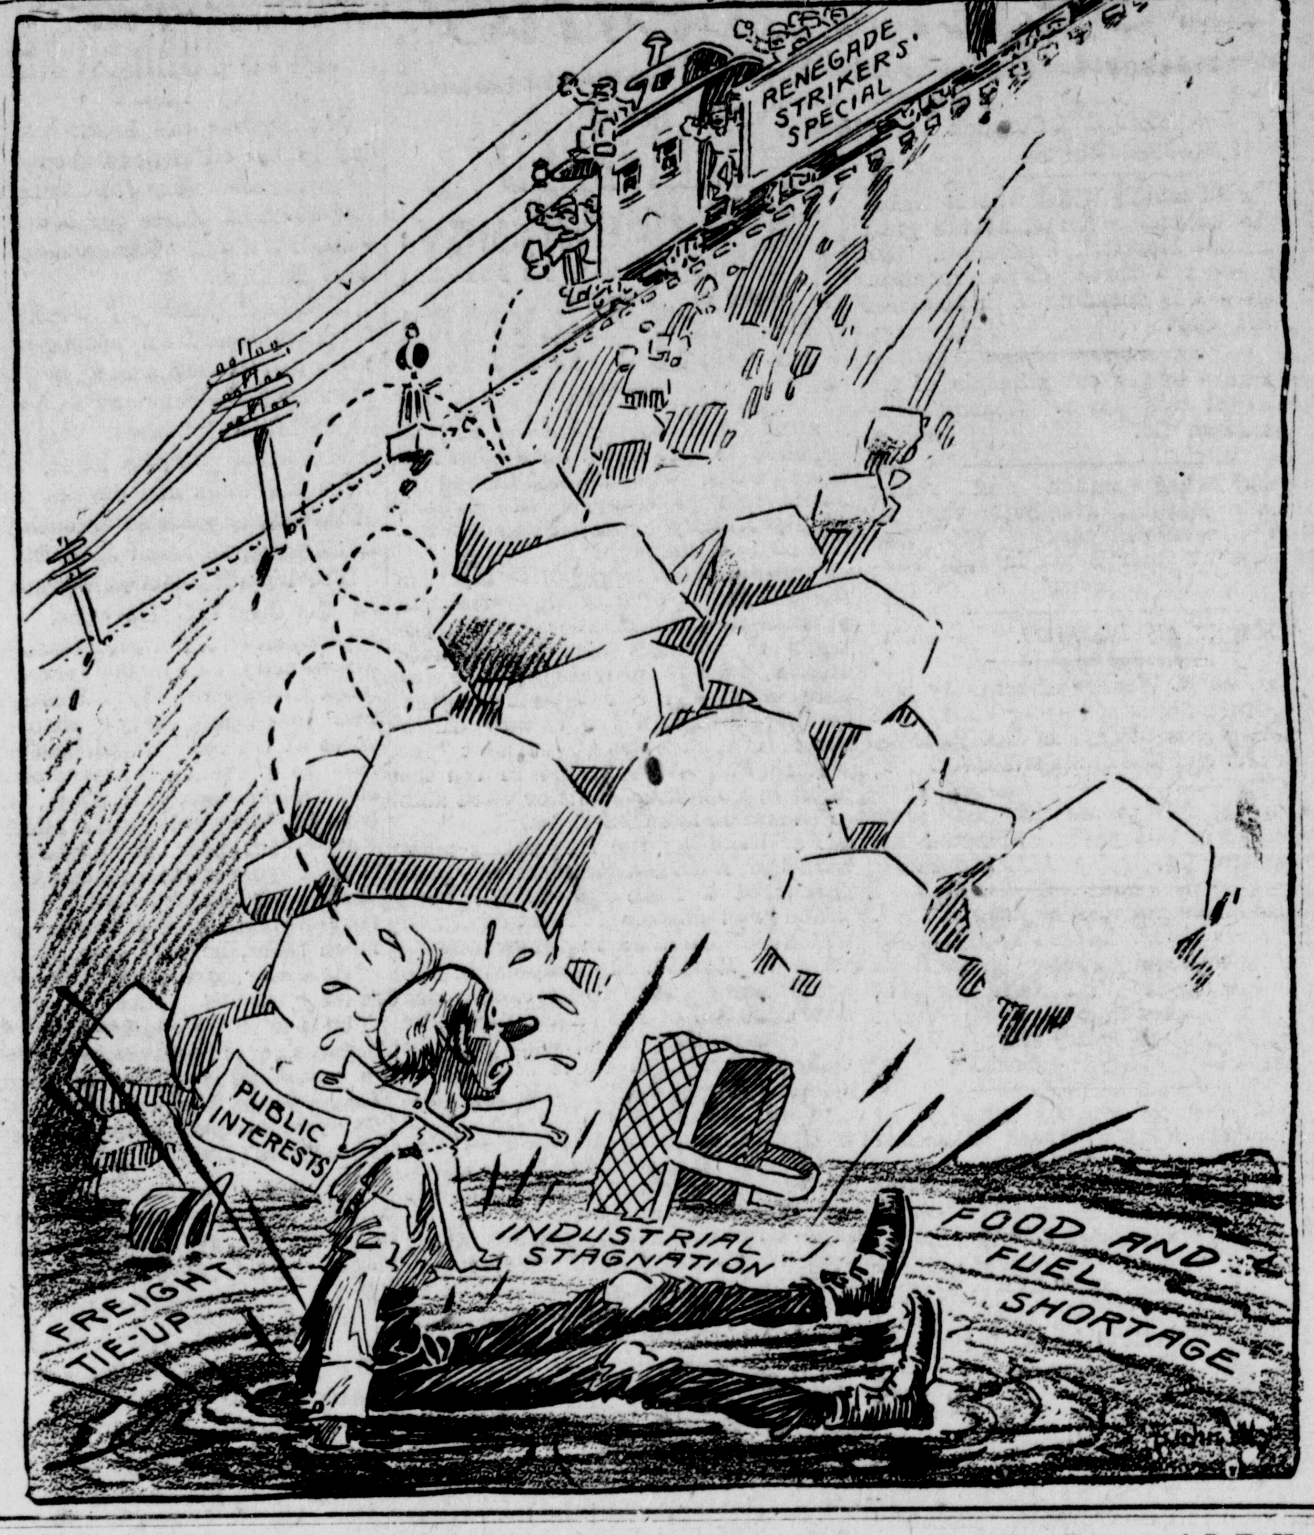

The fact that yardmen were out in the B. & O. yards at Dayton, caused the only tie-up in that city yesterday, but the majority of these men voted to go back to work Thursday morning. It was announced by Superintendent R. B. Mann of the B. & O. that there would be no discrimination against men returning to work.

The situation in Springfield is still doubtful and little can be learned of conditions there. Switchmen held a meeting there last night behind closed doors and any action they took was withheld. A committee was appointed to take care of all publicity. It was not learned whether the switchmen took action at this meeting, affiliating themselves with the Yardmen's Association.

Griffin came to Springfield in December, 1918. On the night of December 14, 1918, Griffin participated in a "party" at the Shawnee hotel. Some of the evening's events were revealed when Griffin prosecuted two men and a woman whom he held responsible for the loss of a \$2,750 diamond pin and \$300 in money.

Miss Jean Perry of New York, Edward Rice, who two weeks later married Miss Perry, and J. F. Hayes of Syracuse, N. Y., were the trio accused by Griffin.

Later Rice produced the diamond and the pin itself was found in a Mobile, Ala., hotel.

The cases never came to trial here, for while she was out on bail Miss Perry or Mrs. Rice was arrested in Columbus for attempting to rob a woman there, and was sent to the reformatory at Delaware.

THE UNITED STATES BEHIND IN AVIATION ENTERPRISES.

Europe is far ahead of the United States in aviation progress. Even struggling little Poland is interested in commercial aviation and proposes to introduce five air lines for passengers, mails and goods.

Great Britain leads all other countries in the development of commercial air traffic. From May 1, 1919, to February 19, 1920, British planes had carried 4,154 passengers and 46,606 pounds of freight, and had covered 70,437 miles. Most of this traffic was between London, Paris and Brussels. From either Paris or Brussels it is but a little over a three-hour trip to London.

Besides establishing regular passenger and freight traffic between London and the continent, British aviation development has included several remarkable long trips, such as the flight across Africa to the Cape, and the flight to Australia. The Handley-Page Company has obtained the air mail contract between Brazil and Argentina. Regular passenger and freight services are planned in India and South Africa.

Private groups are making experiments and undertaking commercial use of airplanes in this country. But the government is doing very little. The war department and the postoffice have established various mail-carrying routes, but nothing more. Many of the plants which started large-scale airplane production during the war have either dismantled their factories entirely or are continuing their work on a greatly reduced production basis. Whatever progress we made as a nation during the war seems to have been lost since the armistice.

This is hardly the part the United States should play in the development of aviation. Justice to ourselves, pride in the early work of American inventors of flying machines and simple common sense all require that we take a more constructive part in the future of flying.

Before the world war, when we were having trouble with Mexico, and Gen. Pershing was playing hide-and-seek with Villa, a couple hundred miles from the frontier, and often seemed lost for a week at a time, we know one editor who kept fussing because flying machines were not being largely used to keep in contact with our forces over there.

Our proximity to the Wright Brothers original aviation field makes us feel more interested than is usual on this subject. We have been hopeful that within a few years we would be able to fly down to Florida, thus overleaping railroad discomforts and railroad strikes. Who knows but that this dream may come true.

NINE-TENTHS OF MEXICO'S FOREIGN TRADE IS WITH THE UNITED STATES.

D. E. Hawkins, a banker of Austin, Texas, has returned after an extended business tour of Mexico, where he made an investigation of trade and general financial conditions and in discussing which he said:

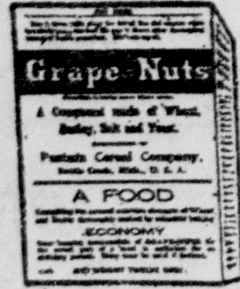

"Nine-tenths of Mexico's foreign trade is now with the United States. All American manufactured articles are finding a ready market there. Mexico's whole trade with all other Latin countries for one year is less than her trade of two weeks with the United States.

"Americans living and doing business in Mexico are on good terms with the Mexicans.

"Possibilities for future development are unlimited. Mexico has much more sugar cane land than Cuba, yet Mexico produces only 100,000 tons of sugar a year, while Cuba produces 4,000,000 tons. Mexico produces 40 per cent of the silver of the world. Abandoned silver mines are being reopened. Mexico is capable of sending 30,000,000 pounds of guayule rubber to the United States annually, and also much dye woods.

"The banks of Mexico are now under a great handicap due to the unsettled condition of the country for the past ten years. I stood in the largest bank in Mexico and watched with wonder the amount of gold coin passing through the paying and receiving windows. This bank has 135 employees. A very small percentage of the business is handled with checks, drafts, bills of acceptance or any kind of order.

"The wide gulf between the rich and poor of Mexico is one of the outstanding features of the country. The majority are very poor. The rich people keep their accounts across the border or with some European concern. There are few deposit accounts that an American banker would call good. Money is hidden away in the ground, in safety boxes, and in every conceivable place, rather than in banks. Apparently this money is coming to light again and the country is rapidly returning to her old business conditions."

Rippling Rhymes

CLIMATE.

I TRAVEL east, I travel west, to find the smoothest climate; and when at last I've found the best, no doubt I'll deftly rhyme it. I travel north, I travel south, and find the folks complaining; for here there is a beastly drouth, and there it's always raining. I sit me down beside the sea to write some soulful stanzas, and fogs come up and smother me, and make me yearn for Kansas. Upon the mountain's brow I sit, and view the valleys under, and then the storm fiend throws a fit, with hail and sleet and thunder. I traverse lands across the foam, from Cork to the Nyanzas; and all things say, "You're far from home," and make me sick for Kansas. And Kansas climate is the worst that e'er the Lord invented, with cold and heat and winds accurs—but there I'm most contented. For there my friends are drilling round, the slowest and the quickest; and where my dearest friends are found, the climate is the slickest. I travel up, I travel down, to find an earthly heaven, and always sigh for my old town, dimensions, five by seven.

Is It Yours

Benjamin Jowett, theologian and scholar, and the greatest translator of Plato, was born in England on the 15th of April, 1817. He obtained a scholarship to college when he was 18, and graduated with high honors when he was 22, from the college of which he was master.

All his life he was much influenced by the writings and philosophy of the Glorious age of Greece, and particularly by the works of Plato. Friends of his have said that he himself was like another Socrates with his pupils, he tried always to make these young men know themselves and he tried to remedy their defects by frank and kindly criticisms. He became known at Oxford as the great tutor. Vacation times he gathered up as many of the undergraduates as he could to go with him, and spent the summer in the country in study, in long tramps and sports, and reading and working.

It was during these vacations that he made his translations of the Dialogues of Plato, a work considered not only the best translation, but even more important because it did so much to spread the philosophy and the simple common sense of one of the world's earliest and greatest philosophers. He made Plato an English Classic.

He planned a great deal more work in bringing the Greek classics before modern readers, but died before he could accomplish it all.

WHEN YOUR COMPLEXION BEGINS TO FADE WITH AGE

You Can Preserve That Clear, Smooth Tint of Youth.

By the Occasional Use of the BLACK and WHITE Beauty Treatment.

As the years go by, women lose that baby-like softness and the rosy tint which they possessed in their girlhood days. Face powders, rouge and toilet creams all help and serve as a mask for their faded, sallow complexion—but such results serve only for a few hours.

The Black and White Beauty Treatment will restore that bloom of youth so much desired—make mothers and daughters appear to be sisters—and its use both safe and delightful. Before retiring, you bathe your face with Black and White Soap, then apply the creamy Ointment and wash off the next morning. You'll be so well pleased with this home beauty treatment that a package of both Black and White Ointment and Soap will always have a place on your dressing table.

Your druggist sells both Black and White Ointment and Black and White Soap at 25c each or the manufacturer will send both on receipt of 50c.

A sample, literature and Black and White Birthday and Dream Book will be sent you free if you clip and mail this advertisement to BLACK and WHITE.

BLOOD POISON
The Corrective Treatment Is Prescription C-2223.

Those who suffer from any of the diseases caused by poisoned blood, will find in Prescription C-2223 just the treatment that they have felt the need for.

This concentrated medicinal preparation was worked out and used for years by a prominent physician. The treatment gave his patients so much relief that its manufacture had to be undertaken in a large way.

Prescription C-2223 has always stood above all other preparations as an alternative of great power. It has relieved so many thousands that the manufacturers guarantee it to give you the same satisfactory benefits.

As Prescription C-2223 contains no mercury, chloral, morphine or other habit forming or dangerous drugs, and you get your money back if two \$1.50 bottles don't relieve you, suppose you go to your nearest druggist today and get yourself a bottle. If he won't supply you, write Dept. 130, 2223 Laboratories.

To help throw off the poisons and to keep the bowels in a healthy condition, you should take two or three 2223 Liver Pills. Free leaflet, 1920 Almanac and sample of pills on receipt of name and address.

Less Than a Nickel a Week

This is all that Swift & Company's profit cost the average American family in 1919.

Here are the figures and authorities for them.

The average consumption of meat per person for a year is about 180 pounds (U. S. Government).

The average American family is 4½ persons (U. S. Census).

Swift & Company's profit from all sources in 1919 averaged less than ¼ cent per pound on all products including meat.

This averages for the family less than the price of—

1 cigar per week for father, or
1 street car fare per week for mother, or
1 package of gum per week for the children.

The complex service which we furnish the public is efficient and economical. The cost to the public in the shape of profit is too small to be noticeable in the family meat bill.

Nerv-Worth Brought Relief and Former Cambridge Resident Tells About It

This enthusiastic praise-giver at one time lived in Cambridge and Byesville. A few days ago in Canton, where she now lives she made the following statement to the Nerv-Worth druggist:

Bolender's drug store—For several years I suffered with my heart. My breathing had become short and difficult. Frequently I would have sharp pains about my heart, sometimes accompanied by fluttering, which would unnerve me. Very nervous; poor appetite; would bloat up; gases in my stomach; poor digestion; no ambition; wasn't able to do my housework.

Physicians prescribed for me with poor results. At last was told about Nerv-Worth. Purchased one bottle, felt very much better and taking the second bottle put me in such shape that am doing my own work. Wouldn't be without Nerv-Worth in my house.

PAINFUL ILLS OF THE HEART WERE HERS FOR YEARS

Nerv-Worth Brought Relief and Former Cambridge Resident Tells About It

This enthusiastic praise-giver at one time lived in Cambridge and Byesville. A few days ago in Canton, where she now lives she made the following statement to the Nerv-Worth druggist:

Bolender's drug store—For several years I suffered with my heart. My breathing had become short and difficult. Frequently I would have sharp pains about my heart, sometimes accompanied by fluttering, which would unnerve me. Very nervous; poor appetite; would bloat up; gases in my stomach; poor digestion; no ambition; wasn't able to do my housework.

Physicians prescribed for me with poor results. At last was told about Nerv-Worth. Purchased one bottle, felt very much better and taking the second bottle put me in such shape that am doing my own work. Wouldn't be without Nerv-Worth in my house.

HAVE COLOR IN CHEEKS Be Better Looking—Take Olive Tablets

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must keep your body free from poisonous wastes. Dr. Edwards' Olive Tablets (a vegetable compound mixed with olive oil) act on the liver and bowels like calomel—yet have no dangerous after effect. Take one nightly and note results. They start the bile and overcome constipation. That's why millions of boxes are sold annually, 10c and 25c.

BLOOD POISON

The Corrective Treatment Is Prescription C-2223.

Those who suffer from any of the diseases caused by poisoned blood, will find in Prescription C-2223 just the treatment that they have felt the need for.

This concentrated medicinal preparation was worked out and used for years by a prominent physician. The treatment gave his patients so much relief that its manufacture had to be undertaken in a large way.

Prescription C-2223 has always stood above all other preparations as an alternative of great power. It has relieved so many thousands that the manufacturers guarantee it to give you the same satisfactory benefits.

As Prescription C-2223 contains no mercury, chloral, morphine or other habit forming or dangerous drugs, and you get your money back if two \$1.50 bottles don't relieve you, suppose you go to your nearest druggist today and get yourself a bottle. If he won't supply you, write Dept. 130, 2223 Laboratories.

To help throw off the poisons and to keep the bowels in a healthy condition, you should take two or three 2223 Liver Pills. Free leaflet, 1920 Almanac and sample of pills on receipt of name and address.

Less Than a Nickel a Week

This is all that Swift & Company's profit cost the average American family in 1919.

Here are the figures and authorities for them.

The average consumption of meat per person for a year is about 180 pounds (U. S. Government).

The average American family is 4½ persons (U. S. Census).

Swift & Company's profit from all sources in 1919 averaged less than ¼ cent per pound on all products including meat.

This averages for the family less than the price of—

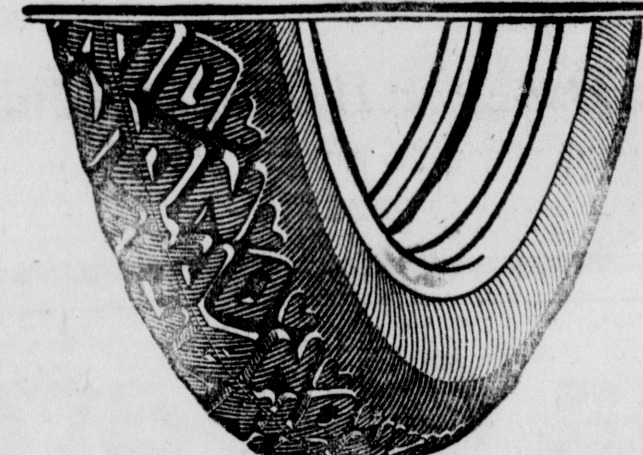

- 1 cigar per week for father, or
- 1 street car fare per week for mother, or
- 1 package of gum per week for the children.

The complex service which we furnish the public is efficient and economical. The cost to the public in the shape of profit is too small to be noticeable in the family meat bill.

HIGH SCHOOL NOTES

The regular weekly assembly opened Wednesday morning with Mr. Pendry introducing Dr. W. R. McChesney, President of Cedarville College. The speaker explained that he was present to urge the students to continue their studies through a high school course and to boost Cedarville College.

The college quartet composed of Messrs Markle, Ewbank, Creswell and White was next introduced and sang several numbers which were well received by the students.

Dr. McChesney next introduced Leroy Allen, Dean of the college. The latter spoke of the desire to go to college and the need for college education, after the present boom is over. He said "We have but one life to live, why not make the most of it?" In order to do that high education is necessary, continued Professor Allen. The great call now is give service to others, according to the speaker, and

he said that the late war has been a failure if it has not taught that fact. He next spoke of the value of getting education in a small institution. He said that a small college gives more opportunity to think. The individual comes in closer contact with his instructors and is greatly benefited by such contact. He then urged all students who were preparing to go to college to look over many advantages offered by Cedarville College.

Dr. McChesney named a few of the most noted graduates of the college after which the quartet sang several

Thousands of cases of dyspepsia BUT ONLY ONE PEPSINCO

PEPSINCO is the only indigestion remedy that we know—and we know lots of so called dyspepsia cures—that will almost infallibly relieve an attack of indigestion, food distress or gas. We could almost make claims that would appear impossible, so seldom does this PEPSINCO fail. But why not consider the recommendation of thousands of people who have used PEPSINCO on the basis of their belief in it. Try it yourself. We are sure that the suggestion will appeal to you—you who suffer with indigestion or stomach faults—try PEPSINCO to-day.

Ask your druggist—he sells and recommends Pepsinco.

Cut Your Living Cost

By simply comparing costs with the caloric value of foods the housewife can furnish the family with necessary food energy at the minimum cost. The entire scheme is to buy by caloric measurement. In other words buying by the hundred calories. A few of the common foods and their respective energy giving values per pound are:

BREAD	1128 CALORIES
BEEFSTEAK	623 CALORIES
EGGS (20)	739 CALORIES
POTATOES	369 CALORIES

Now compare bread at ten cents per pound against the price per pound of the other foods mentioned. The best bread is

Thousands of cases of dyspepsia
BUT ONLY ONE
PEPSINCO
PEPSINCO is the only indigestion remedy that we know—and we know lots of so called dyspepsia cures—that will almost infallibly relieve an attack of indigestion, food distress or gas. We could almost make claims that would appear impossible, so seldom does this PEPISINCO fail. But why not consider the recommendation of thousands of people who have used PEPISINCO on the basis of their belief in it. Try it yourself. We are sure that the suggestion will appeal to you—you who suffer with indigestion or stomach faults—try PEPISINCO to-day.
Ask your druggist—he sells and recommends Pepsinco.

Cut Your Living Cost
By simply comparing costs with the caloric value of foods the housewife can furnish the family with necessary food energy at the minimum cost. The entire scheme is to buy by caloric measurement. In other words buying by the hundred calories. A few of the common foods and their respective energy giving values per pound are:

BREAD	1128 CALORIES
BEEFSTEAK	623 CALORIES
EGGS (20)	739 CALORIES
POTATOES	369 CALORIES

Now compare bread at ten cents per pound against the price per pound of the other foods mentioned. The best bread is

Cream Crum BREAD
BAKED BY
THE CAKE SHOP
117 East Main Street.
Bread is your best food. Eat more of it.

THE RIGHT FINISH
The wear some interior surfaces get is greater than the wear on exterior surfaces. Each surface must have a means to resist that wear it gets. What do you want to retouch or refinish? That determines the kind of D & B paint or varnish to use. Our products exactly fit your variety of needs. Tell us what you want to finish and we will furnish you with the right D & B product.
Now is the time to decide, before Spring house cleaning. Why not brighten up the woodwork and furniture now? Do it in your spare time.
Drop in and see the pleasing effects you can get with the brush and a can of D. & B. You'll be surprised at the results.

Better than Pills
YOU WILL NEVER wish to take another dose of pills after having once used Chamberlain's Tablets. They are easier and more pleasant to take, more gentle and mild in their action and more reliable. They leave the bowels in a natural condition, while the use of pills is often followed by severe constipation, requiring a constant increase in the dose. Every bottle guaranteed by your druggist.

Gain Strength and Vigor rapidly on Vinol, our Cod Liver and Iron Tonic.

Vinol contains the very elements needed to replace weakness with strength, just as it did for this New York man.

"I am 74 years of age and got into a weak, run-down condition as a result of the grippe. Our druggist suggested Vinol to build me up and I noticed an improvement soon after taking it, and it has restored my strength so I can now do a good day's work. My wife has also taken Vinol for a run-down condition with splendid results."

MEETING CALLED ON BOND ISSUE

In the interests of the joint bond issue for two new high schools, which will include Lincoln High building, a meeting will be held at the present Lincoln school house Monday evening at 7:30 o'clock.

The meeting will be open to both men and women and everybody is invited. The meeting will be in charge of William Shields, chairman of the Lincoln Publicity Committee, and Jacob Kany, member of the school board who has been assigned to organize that school and D. B. R. McGellan, chairman of the executive committee for the bond issue campaign and Judge Marcus Shoop, chairman of the speaker's committee will also be present.

Plans for the proposed new Lincoln High School will be displayed and will be discussed at the meeting.

NEW FOUNDRY HAS TEMPORARY OFFICE

The Xenia Foundry & Machine Company has established temporary offices in the building of the Shawnee Refrigeration Company pending erection of the new building to house the casting concern.

W. M. Huston, president of the new concern, and Ernest Pester, secretary and treasurer, have come here from Dayton and are in the offices every day. Both officials of the company are looking for houses in this city so that they can move their families to this city as soon as possible.

BELLBROOK

There was a general "diggin' up" of overshoes Tuesday morning.

George Decker is moving to town. Funeral services for W. S. Hodges, who died Sunday, were held at his late residence, and burial made in Bellbrook cemetery Tuesday afternoon.

Deputy Sheriff Birch and Constable Whitson of Xenia, created quite a stir in the village one day last week when they started in to round up the owners and harborers of dogs on which no tax had been paid.

Mrs. Turnbull has returned home with her son-in-law and daughter, attorney and Mrs. Harry Armstrong.

James Turner and family of Springfield, spent Saturday and Sunday with Mr. Turner's parents, Mr. and Mrs. J. S. Turner and other relatives.

Allen Edwards has moved back to town.

Attorney Leo Mills spent Saturday night and Sunday with his parents, Mr. and Mrs. C. F. Mills.

Harry E. Watson of Detroit, arrived Tuesday to be in attendance at the funeral of his brother, Bert Watson, which will occur at Fairfield, Thursday.

We regret very much that the name of Lois Woods, who acted the part of "young 'un," in "The Arizona Cowboy," did not appear with the other partakers in the play. We wish to say for her benefit that her part was well rendered, it being doubtful if another as good for the place could have been found in the township. The omission was not intentional.

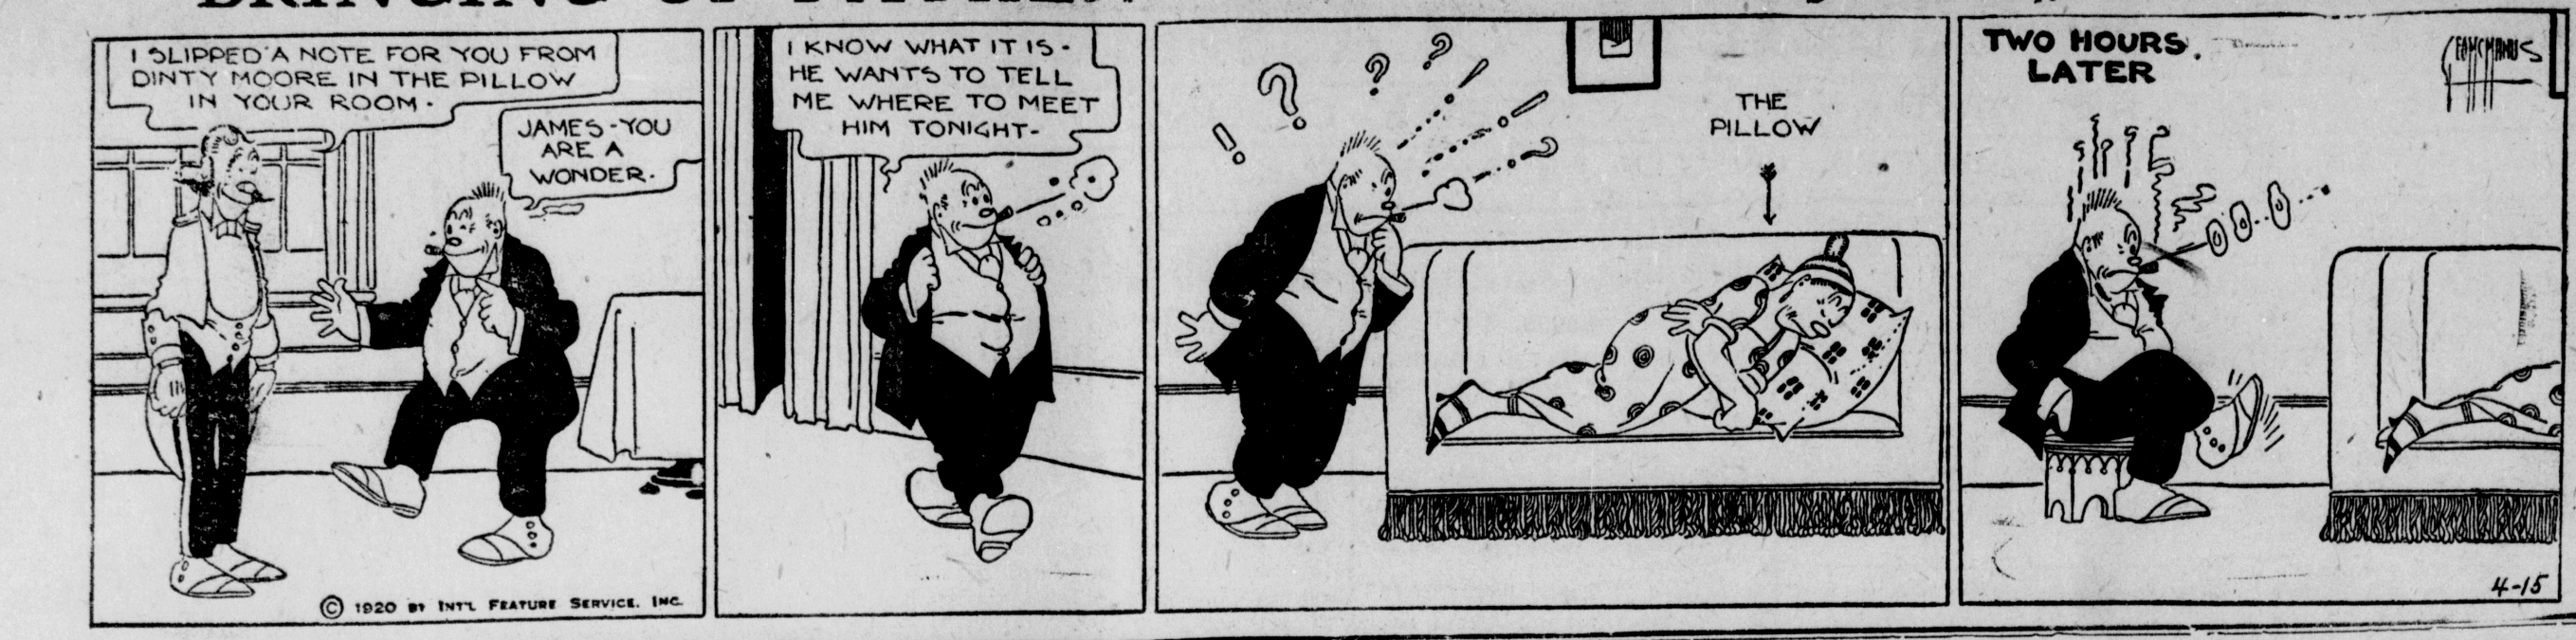

Mr. and Mrs. Oral Hess entertained on Easter in honor of Mrs. Hess' 35th birthday anniversary. The following guests were present: Mrs. Josephine Gibbons, John Gibbons, Mr. and Mrs. Harvey Fulkerson, Frank Gibbons, John Gibbons, Ruth Gibbons, Jessie Gibbons, Harold Weeks, Kenneth, Oscar and Lee Fulkerson, Clyde and Wilfred Gibbons.

Mr. and Mrs. Earl Hess of Akron, O., former resident here, announce to their friends the arrival at their home of an 8-pound baby girl.

The infant son of Mr. and Mrs. Mark Webb, who has been confined to the home with sleeping sickness, is reported better. This is the first case of this kind of illness to occur in the neighborhood.

Bert Watson, brother of Oliver Watson died at the McClellan hospital in Xenia, Sunday, following an operation for appendicitis. Mr. Watson was born in Bellbrook in 1869, and lived here all his life until about 20 years ago, when he secured employment in Osborn, and went there to live. He was residing in Fairfield at the time of his death.

He was united in marriage to Miss Rose Hebble in 1902. He is survived by his widow, step-daughter, and four brothers and sisters, as follows: Oliver Watson and Nellie Soward of Bellbrook, Harvey E. Watson of Detroit, Mich., and Mrs. Harry McGinnis of Lytle. Funeral will occur at the Reformed church in Fairfield, Thursday at 2 p. m., and burial made in Fairfield cemetery.

THE CHEERFUL CHERUB

Household Hints

MENU HINT

Breakfast. Apple Sauce. Oatmeal. Toast. Coffee.

Luncheon. Egg Souffle. Brown Bread. Homemade Pickle. Orange and Date Salad. Chocolate Cup Cakes.

Dinner. Pot Roast. Baked Potatoes. Steamed Onions. Hot Biscuit. Lemon Pie.

RECIPES FOR A DAY

Orange and Date Salad—Allow half an orange and three or four dates for each portion cut the fruit in small pieces and arrange on shredded lettuce. Serve with cream dressing.

Cream Dressing—Mix one-quarter tablespoon salt, one-half teaspoon mustard and one teaspoon sugar; then add one egg, slightly beaten, then two and one-half tablespoons melted butter, one small can milk and one-quarter cup vinegar very slowly. Cook in double boiler until thick.

Egg Souffle—Make a cream sauce of one teaspoon butter, one teaspoon salt, a tablespoon flour and one cup milk; when the sauce is cool add the yolks of three eggs, then fold in the whites, well beaten. Pour in a baking dish and bake in a rather warm oven for twenty minutes.

This "dish" is a variation from the usual ways of serving eggs. It is quickly made, and is especially nice for luncheons.

Brown Bread—Two cups of Graham flour, one teaspoon of salt, one cup of sour milk in which dissolve one teaspoon of soda, one-third cup of molasses. Mix in the order given, turn into a buttered bread tin and

bake in a moderate oven for about three-quarters of an hour.

If you have no sour milk, use the same amount of either sweet milk or water. If sweet milk is used add one teaspoon of baking powder instead of soda. Raisins may be added if desired.

Olive Oil Mayonnaise Dressing—To the yolks of two eggs or one whole egg may be used, add one tablespoon of vinegar; beat well, then add salt to taste and oil until as thick as desired.

The old-fashioned way was to drop the oil in very slowly, drop by drop, but if vinegar is added to the eggs first, the oil may be poured in much faster and the mayonnaise will never curdle.

CAKES

Walnut Cake—Cream one-half cup of lard and one cup of sugar together. Add one whole egg and two egg yolks, one-half teaspoon salt, one cup milk or water, two teaspoons baking powder and two cups flour. Then add one cup of chopped walnut meats and one teaspoon vanilla.

Put together with any kind of a white frosting. Bake ten minutes in a moderate oven.

Angel Cake—One cup sugar, one cup flour, three teaspoons baking powder, a pinch of salt. Sift these together.

Scald a cup of milk, pour over all while hot, then add the beaten whites of two eggs. Do not grease pan.

This makes one medium size cake and is very cheap.

Devil's Food Cake—One cup brown sugar, one cup sweet milk, one cup cocoa. Boil on stove in double boiler until like thick cream. Let cool, then mix one-half cup milk (sweet), one cup brown sugar, one-half cup butter, three eggs (leaving one white for frosting), one teaspoon soda, two cups flour, sifted five times, salt and vanilla. Add this to above mixture.

THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS

A MODERN STORY OF HOME AND BUSINESS

GETTING THE KENYONS SETTLED
Chapter 104

Mary was to be married in the Little Church Around the corner.

"I've wanted to be married in that church ever since I was a poor little kiddie peeping through the fence and thinking it was like heaven in there," she told us when we asked where she was going to have the ceremony.

"There won't be anybody there except you boys and girls, and two or three friends of Gardner's. But I wouldn't feel I was married anywhere else."

"And as I want her to feel married, I think she better have her way," Gardner looked proudly at the bright girl who—without help from anyone, without relatives, almost without a friend—had made a place for herself, and had kept good and sweet.

We had given her our present. She was to be married the next day. They were to go away for a couple of weeks then go directly to their home. The furniture would all be in, and they would only have to put it in place.

Mary laughed, she cried, she hugged us all, even the boys, in her delight at her gift.

Why girls if a fairy had told you what to give me—I believe one did! I never could have made those things in the world. Gerry designed them, I'll bet."

"You've won," Betty declared.

"And oh, won't I be proud of my room! Gardner bought me the loveliest suite, ivory and cane. I shall blow up and bust if someone don't say something. I want to cry."

Down went her head on the table, and Mary Ryan, the self-made girl, who had come into her own at last, cried as if her heart would break for a moment. Then raised her head and said:

"Come here, Gardner, and wipe my eyes. I haven't any handkerchief."

We all screamed with laughter. And Mary, herself again joined us.

"Just a shower, girls that was all. Can't have the sunshine all the time, Gardner would get tanned."

They left early. After they had gone, we sat and talked of them a while, principally of Mary. Before we left we folded all the draperies and laid them carefully in boxes ready to send.

"I don't know what I shall do now to occupy my time," I said to Jane.

"We have been so busy with Mary's present I shall miss these long afternoon noons sewing with you girls."

"Our history takes one afternoon a week you know," Jane encouraged.

"Yes I know. And I am getting Robert interested. We will talk it over evenings. In that way it will do us both good."

"Great idea, Gerry, I'll get Frank enthused. Jane has Carson in leading strings over it now. But what could you expect of the husband of a school ma'am?"

Again after a few days that feeling of depression crept over me. The work for Mary had been but a reprieve. I once more took long walks, dreading myself physically so that I would not fret. Then Mary came back, and the feeling was again interrupted for a couple of days while we helped them settle—or hindered them—Carson said. We had all gone down to assist in putting the furniture in place.

Mary was so happy it was a joy to watch her.

"Girls, I don't believe any one ever had so pretty a bedroom," she said, her eyes shining. We had hung the curtains, made the beds, put everything in place in that room. It was lovely, but none too lovely for Mary.

"Why, girls!" Gardner came in just as we finished. He and the boys had been uncrating the dining room furniture, and had let us alone. "Why—it's perfect! Come here, fellows and see what a wonderful room these wives of yours have made for us!"

"We helped a little," Carson pretended to pout.

"Of course you did!" Mary broke in happily. "I guess the girls had to have things to work with, Gardner. That's where the boys came in."

TAXI DRIVER SHOT BY PASSENGER IS SERIOUSLY INJURED

Dayton, April 15.—The condition of Ralph McLaughlin, driver for the Acme Taxicab company, who yesterday told police he was shot twice by an alleged automobile bandit near Springfield early yesterday morning, is unchanged according to attaches of Miami Valley hospital. One bullet is lodged near the spine and the other in the back.

McLaughlin says he was called to the Ohio Electric station Tuesday afternoon by a man who told him he had just missed the car for Springfield. When they arrived there the passenger requested the driver to take him to Columbus. He did so, and when they reached Columbus the man told the driver he must be in Cleveland at a specified time.

McLaughlin says he went as fast east as Galion, and when the roads became bad he told the occupant of the car he could not take him any farther. He turned back and the man came with him. When they

INCREASED COAL PRICE WORRIES DEALERS; SHORTAGE CONTINUES

With the demand for coal lessened by the warmer weather fuel conditions looked a little better here Thursday, but dealers here are worried over the increase prices they have to pay for the product and the absolute inability in many cases to secure it at all.

Although the strike situation is a little more sanguine, with fair chances of getting a car of coal through from certain quarters without interference because of the freight tie-up, coal dealers are still not satisfied. The inability to get coal from the operators is looming up now as a bigger handicap than the rail strike threatened to be.

Operators are not half filling the tenders of the M. E. Church and H. S. said, and are selling the coal at their own price at the time it leaves the Church, Springfield, have been ap-

mines. In other words operators will not quote a price on the fuel, but will sell it only "price unseen," or subject to the price they want to make it when it is delivered.

About \$9 a ton will be paid by consumers for coal it is said. Dealers are buying coal at \$5.15 at the mines, to which must be added \$1.70 freight, cost of unloading, war tax and other miscellaneous expenses, which will run the price to the dealers at 7 and over. The retail price then will easily be \$9 a ton and possibly more, especially on the different grades.

BELLBROOK

There was a general "diggin' up" of overshoes Tuesday morning.

George Decker is moving to town. Funeral services for W. S. Hodges, who died Sunday, were held at his late residence, and burial made in Bellbrook cemetery Tuesday afternoon.

Deputy Sheriff Birch and Constable Whitson of Xenia, created quite a stir in the village one day last week when they started in to round up the owners and harbors of dogs on which no tax had been paid.

Mrs. Turnbull has returned home with her son-in-law and daughter, attorney and Mrs. Harry Armstrong. James Turner and family of Springfield, spent Saturday and Sunday with Mr. Turner's parents, Mr. and Mrs. J. S. Turner and other near relatives.

Allen Edwards has moved back to town.

Attorney Leo Mills spent Saturday night and Sunday with his parents, Mr. and Mrs. C. F. Mills.

Harry E. Watson of Detroit, arrived Tuesday to be in attendance at the funeral of his brother, Bert Watson, which will occur at Fairfield, Thursday.

We regret very much that the name of Lois Woods, who acted the part of "young 'un," in "The Arizona Cowboy," did not appear with the other partakers in the play. We wish to say for her benefit that her part was well rendered, it being doubtful if another as good for the place could have been found in the township. The omission was not intentional.

Mr. and Mrs. Oral Hess entertained on Easter in honor of Mrs. Hess' 36th birthday anniversary. The following guests were present: Mrs. Josephine Gibbons, John Gibbons, Mr. and Mrs. Harvey Fulkerson, Frank Gibbons, John Gibbons, Ruth Gibbons, Jessie Gibbons, Harold Weeks, Kenneth, Oscar and Leo Fulkerson, Clyde and Wilfred Gibbons.

Mr. and Mrs. Earl Hess of Akron, O., former resident here, announce to their friends the arrival at their home, of an 8-pound baby girl.

The infant son of Mr. and Mrs. Mark Webb, who has been confined to the home with sleeping sickness, is reported better. This is the first case of this kind of illness to occur in the neighborhood.

Bert Watson, brother of Oliver Watson died at the McClellan hospital in Xenia, Sunday, following an operation for appendicitis. Mr. Watson was born in Bellbrook in 1869, and lived here all his life until about 20 years ago, when he secured employment in Osborn, and went there to live. He was residing in Fairfield at the time of his death.

He was united in marriage to Miss Rose Hebble in 1902. He is survived by his widow, step-daughter, and four brothers and sisters, as follows: Oliver Watson and Nellie Soward of Bellbrook, Harvey E. Watson of Detroit, Mich., and Mrs. Harry McGinnis of Lytle. Funeral will occur at the Reformed church in Fairfield, Thursday at 2 p. m., and burial made in Fairfield cemetery.

RECIPES FOR A DAY

Orange and Date Salad—Allow half an orange and three or four dates for each portion cut the fruit in small pieces and arrange on shredded lettuce. Serve with cream dressing.

Cream Dressing—Mix one-quarter tablespoon salt, one-half teaspoon mustard and one tablespoon sugar; then add one egg, slightly beaten, then two and one-half tablespoons melted butter, one small can milk and one-quarter cup vinegar very slowly. Cook in double boiler until thick.

Egg Souffle—Make a cream sauce of one teaspoon butter, one teaspoon salt, a tablespoon flour and one cup milk; when the sauce is cool add the yolks of three eggs, then fold in the whites, well beaten. Pour in a baking dish and bake in a rather warm oven for twenty minutes.

This "dish" is a variation from the usual ways of serving eggs. It is quickly made, and is especially nice for luncheons.

Brown Bread—Two cups of graham flour, one teaspoon of salt, one cup of sour milk in which dissolve one teaspoon of soda, one-third cup of molasses. Mix in the order given, turn into a buttered bread tin and

bake in a moderate oven for about three-quarters of an hour.

If you have no sour milk, use the same amount of either sweet milk or water. If sweet milk is used add one teaspoon of baking powder instead of soda. Raisins may be added if desired.

Olive Oil Mayonnaise Dressing—To the yolks of two eggs or one whole egg may be added, add one tablespoon of vinegar; beat well, then add salt to taste and oil until as thick as desired.

The old-fashioned way was to drop the oil in very slowly, drop by drop, but if vinegar is added to the eggs first, the oil may be poured in much faster and the mayonnaise will never curdle.

CAKES

Walnut Cake—Cream one-half cup of lard and one cup of sugar together. Add one whole egg and two eggs yolks, one-half teaspoon salt, one cup milk or water, two teaspoons baking powder and two cups flour. Then add one cup of chopped walnut meats and one teaspoon vanilla.

Put together with any kind of a white frosting. Bake ten minutes in a moderate oven.

Angel Cake—One cup sugar, one cup flour, three teaspoons baking powder, a pinch of salt. Sift three times.

Scald a cup of milk, pour over all while hot, then add the beaten whites of two eggs. Do not grease pan.

This makes one medium size cake and is very cheap.

Devil's Food Cake—One cup brown sugar, one cup sweet milk, one cup cocoa. Boil on stove in double boiler until like thick cream. Let cool, then mix one-half cup milk (sweet), one cup brown sugar, one-half cup butter, three eggs (leaving one white for frosting), one teaspoon soda, two cups flour, sifted five times, salt and vanilla. Add this to above mixture.

THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS
A MODERN STORY OF HOME AND BUSINESS

GETTING THE KENYONS SETTLED

Chapter 104

Mary was to be married in the Little Church Around the corner.

"I've wanted to be married in that church ever since I was a poor little kiddie peeping through the fence and thinking it was like heaven in there," she told us when we asked where she was going to have the ceremony. "There won't be anybody there except you boys and girls, and two or three friends of Gardner's. But I wouldn't feel I was married anywhere else."

"And as I want her to feel married, I think she better have her way," Gardner looked proudly at the bright girl who—without help from anyone, without relatives, almost without a friend—had made a place for herself, and had kept good and sweet.

We had given her our present. She was to be married the next day. They were to go away for a couple of weeks then go directly to their home. The furniture would all be in, and they would only have to put it in place.

Mary laughed, she cried, she hugged us all, even the boys, in her delight at her gift.

Why girls if a fairy had told you what to give me—I believe one did! I never could have made those things in the world. Gerry designed them, I'll bet."

"You've won," Betty declared.

"And oh, won't I be proud of my

room! Gardner bought me the loveliest suite, ivory and cane. I shall blow up and bust if someone don't say something. I want to cry."

Down went her head on the table, and Mary Ryan, the self-made girl, who had come into her own at last, cried as if her heart would break for a moment. Then raised her head and said:

"Come here, Gardner, and wipe my eyes. Haven't any handkerchief."

We all screamed with laughter. And Mary, herself again joined us.

"Just a shower, girls that was all. Can't have the sunshine all the time. Gardner would get tanned."

They left early. After they had gone, we sat and talked of them a while, principally of Mary. Before we left we folded all the draperies and laid them carefully in boxes ready to send.

Again after a few days that feeling of depression crept over me. The work for Mary had been but a reprieve. I once more took long walks, trying myself physically so that I would not fret.
